

How to Access Your Parks & Recreation Account

If you had an account on our previous Parks & Recreation registration system you will be able to reset your password on the new system to access your account. For your convenience, all of your household data has been transferred over to the new system but you have to reset a new password. Please review your information when you log in to confirm its accuracy and change anything that needs to be updated before registering for a class. No prior registration data has transferred over. If you need a receipt from previous years, please contact the Middletown Parks & Recreation Department for assistance. These instructions will also apply at any time you wish to reset your password on your account.

See below for instructions on how to access your account. ***Reminder this is only if you previously had an account with us on the prior system!***
