## **Join Us for the Going Solar Educational Seminar Hosted by the Environmental Advisory Council**

# HOMEOWNER'S GUIDE TO GOING SOLAR

The Environmental Advisory Council is hosting a free educational seminar about going solar in your home on Tuesday, October 18th at 6:30pm at the Municipal Center.

A PECO Specialist will provide useful information and on-line resources for homeowners interested in installing solar. They will inform residents of the installation process, benefits, and have a Q&A session. Solar is an environmentally friendly way to use renewable energy and reduce your utility bill.

**Join Us for ParklandFEST Community Day on  
Saturday, October 8th!**

Middletown Township is excited to invite everyone to a Beer Garden at ParklandFest Community Day on Saturday, October 8th from 12-4 PM at Firefighters' Park in Parkland.

Join us to grab a bite to eat, gather with neighbors, have a cold beer or wine, check out the vendors, while the children had many games and activities to participate in. There will be vendors, games, college football games on TV, food trucks, and a beer garden benefitting the Middletown Community Foundation.

There will be live music throughout the event: with the final musical performance featuring the popular, crowd pleasing, Uptown String Band.

Don't miss out on a fun filled afternoon with family, friends, and neighbors!

## Styer Orchard Market is Home to Two New EV Charging Stations

Two new Electric Vehicle Charging Stations were installed this summer at Styer Orchard Market.

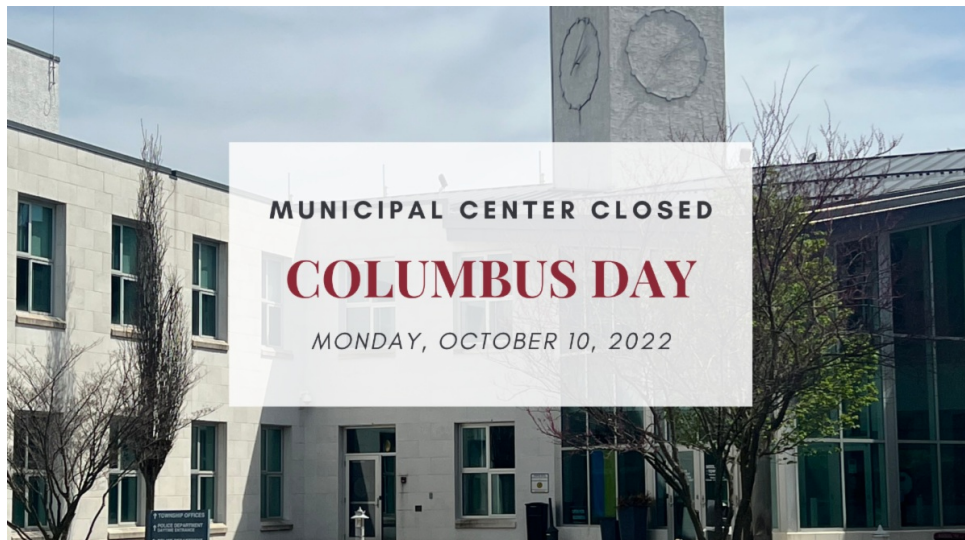

Styer Orchard Market charging stations are convenient and accessible to shoppers as well as local residents.

“Expanding the community’s access to electric vehicle infrastructure will make living an environmentally-friendly lifestyle more attainable for our residents”, said Middletown Board Chairperson Mike Ksiazek.

The Electric Vehicle Charging Stations cost \$0.18/kWh to use, to cover the energy cost.

## What to do with Fall Foliage – Other Than Leaving Leaves in Storm Drains

Autumn is marked by falling temperatures, falling rain and falling leaves. While stormwater systems are prepared for increases in the volume of water, the added leaf litter can aggravate the treatment process and overwhelm systems. The main issue with fall foliage in a stormwater system is that leaf litter contributes to harmful chemicals in our water.

By looking for ways to use leaves at home, you can help minimize these issues.

Some of these things include:

- Mulching flower beds or around trees with the leaves
- Add leaves to your compost pile
- Fertilize your lawn naturally by mowing your leaves
- Rake them up and put them out for collection

If you can't find a way to use all of your leaves and need to put them out for collection, **keep them out of the street.** If you have a storm sewer inlet in front of your house, be sure to keep it clear of leaves and other debris.
